SDI EDITORIAL COMMENTS FORM

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
The manuscript can be accepted for publication after adding the following references which can enhance the readability and the visibility of the paper: (Mandatory for publication) 2009. Rapid relief of acute sore throat with AMC/DCBA throat lozenges: randomised controlled trial. International Journal of Clinical Practice 64(2), 194- 207. 2017. Clinical correlation between McISSAC score and throat swab culture in predicting streptococcal pharyngitis in patients presenting with sore throat. Journal of Medical Science and Clinical Research 5(11). 2017. Comparison of polyvinyl chloride and tin stylets for postoperative sore throat and hoarseness. European Journal of Anaesthesiology 34(10), 702-703. 2017. Syrian medical legislation impacts stories on pharmacy in the millennium. Chronicles of Pharmaceutical Science 1(5), 307-311. 2018. Efficacy and safety of a triple active sore throat lozenge in the treatment of patients with acute pharyngitis: Results of a multi-centre, randomised, placebo-controlled, double-blind, parallel-group trial (DoriPha). International Journal of Clinical Practice 72(12), e13272.	The references have been incorporated in the manuscript.
Specific comments: 1- Mention the available local and international regulations for this kind of oral-medical application. 2- The layout of the paper should be revised and improved.	The authors did not found any kind of international regulation for this kind of oral-use of medicines. But we assure that we would incorporate in our next manuscript. The layout have been modified.
