General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>The author is advised to transpose Tables 1 and 2 so that the different concentrations (Groups) are in the columns while the parameters are in rows. I am very familiar with GraphPad Prism and that's the right way it analyses data.</p> <p>It is also suggested to the author that similar tables could be merged. The author could merge tables 3 and 4, 5 and 6, 7 and 8, 9 and 10.</p> <p>In line 338, the author could use "supports several findings" rather than "support the findings of"</p> <p>The author is advised to provide a reference for the statements in Line 432 to 435.</p> <p>The author is advised to provide source of grants if any</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
