EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
I suggest that the author remove the "Effect" on the title of the manuscript. I don't think it is necessary as suggested by one of the reviewers. The title should read "Acute toxicity studies and Phytochemical constituents of different solvents extracts of <i>Carica papaya</i> seeds". The content of the manuscript is not affected by the modified topic.	The suggested correction on the article' title has been done
