

SDI Review Form 1.6

Journal Name:	International Journal of Pathogen Research
Manuscript Number:	Ms_IJPR_47384
Title of the Manuscript:	Bacteriological Quality Assessment and Antibioqram Profile of Bacteria Associated with Sachet Drinking Water Sold at Zaria, Northern Nigeria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This paper examines the microbiological profile and sensitivity of bacteria found in drinking water of Northern Nigeria. The content of the study is important for the defense of public health. The process of collecting and processing the samples was done in an acceptable way. The analysis of the results is sufficient and demonstrates true pathogens by revealing that water is not potable for human consumption. According to this reviewer this can be published as it is.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
