PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The manuscript should be re-written. There are many grammer and spelling errors, and expression problems. 2. In introduction, the authors stated that syringomyelia were divided into two groups. The one reason is primary type which has been numbered as 1). The second type does not have any number. Where is 2)? 3. The abbreviations should be explained at the first place of the manuscript. (i.e. CSF, ADA) 4. The references have numbers. On the line of 34, the sentence is like this: "Symptoms may vary among individuals between the ages of 25 and 40.^a. What does "a" symbolize? Reference? 5. How long did he treatment and follow-up period of PNF with mental practice take for the patient? 6. The results are not well-discussed. Is there any comparable treatment on the literature for this kind of patients? 	
Minor REVISION comments		
Optional/General comments
