PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The study presented in this paper is of applicational value. The methodology and the scope of this manuscript is fitting to be published. However, the manuscript itself is poorly prepared. Thus, I would like to see the following issues addressed before the manuscript can be published,</p> <p>The English need to be improved, at least the author should make a decent effort to get rid of spelling error. The formatting must be uniform, such as indents and alignments Please summarize the table to bar charts. Please add a section to briefly explain how the potential variables in the studies were controlled: does the different method employed different farming machines? Please include a section on the assessment of the potential errors in the measurement.</p>	
Minor REVISION comments	Use same font in the manuscript.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
