

Editor's Comment:

Decision: Minor Revision

The manuscript can be accepted for publication after adding the following references which can enhance the readability and the visibility of the paper: (Mandatory for publication)

2009. Rapid relief of acute sore throat with AMC/DCBA throat lozenges: randomised controlled trial. *International Journal of Clinical Practice* 64(2), 194-207.

2017. Clinical correlation between McISSAC score and throat swab culture in predicting streptococcal pharyngitis in patients presenting with sore throat. *Journal of Medical Science and Clinical Research* 5(11).

2017. Comparison of polyvinyl chloride and tin stylets for postoperative sore throat and hoarseness. *European Journal of Anaesthesiology* 34(10), 702-703.

2017. Syrian medical legislation impacts stories on pharmacy in the millennium. *Chronicles of Pharmaceutical Science* 1(5), 307-311.

2018. Efficacy and safety of a triple active sore throat lozenge in the treatment of patients with acute pharyngitis: Results of a multi-centre, randomised, placebo-controlled, double-blind, parallel-group trial (DoriPha). *International Journal of Clinical Practice* 72(12), e13272.

Specific comments:

- 1- Mention the available local and international regulations for this kind of oral-medical application.
- 2- The layout of the paper should be revised and improved.
