**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Identify your specific objectives and state the two gaps that gave rise to the research.</p> <p>Other studies that employed multiple regression identified a significant effect of government expenditure on economic growth why yours is the contrary. This is because the model applied does not fit this research. Multiple regression is more suitable as it shows a direct relation between the independent and dependent variable other than bringing in a mediating variable which is not the case with your study.</p> <p>Rewrite your topic to be in line with your main objective.</p> <p>"Government Expenditure and economic growth" it is more appropriate.</p>	
<b>Minor</b> REVISION comments	Anchor your work on 1 theory and explain the rest theory in relation to your work.
