

Editor's Comment:

Thanks for sending the MS entitled "Hypoglycemic and Hypolipidaemic Effect of Methanolic Extract of Corchorus olitorius Leaves in Albino Rats" for final decision. I have gone through the minor issues raised by the reviewers in the MS which has been taken care. I hope the ethical issues have been sorted out.

I feel the MS can be published by minor changes in the title as: "Effect of Methanolic Extract of Corchorus olitorius Leaves on Hypoglycemic and Hypolipidaemic activities in Albino Rats"

I recommend it for the publication.
