

SDI EDITORIAL COMMENTS FORM

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>Overall comments:</p> <p>The results and discussion portion need to reorganize again in a concise format. References portion need to enrich more. The author(s) must avoid grammatical mistakes.</p> <p>Specific comments:</p> <p>Title:</p> <ol style="list-style-type: none"> 1. Please check the spelling; 2. It will be better if the word 'Motives' could be altered with another suitable word that be matched with the objectives and results of the manuscript. <p>Abstract:</p> <ol style="list-style-type: none"> 1. There are some ill presentation in conjunctions and phrases. Linguistic patterns need to revise very seriously; 2. Abstract is quite large and junked to understand at a glance. <p>Introduction:</p> <ol style="list-style-type: none"> 1. There are some grammatical mistakes, spelling error, and space missing. <p>Methods and Methodology</p> <ol style="list-style-type: none"> 1. Good and appreciable methodology; 2. Sample size is not properly represented the population size. <p>Results and Discussion</p> <ol style="list-style-type: none"> 1. Subhead numberings and titles are burdensome here; 2. Too much descriptive. Contents need to revise and make it concise. <p>References</p> <ol style="list-style-type: none"> 1. References are not too rich; <p>Not followed similar format at all.</p>	<p>Overall comment</p> <ol style="list-style-type: none"> 1-in section of result and discussion are reorganised according to the format. 2- References are improved 3-Grammaticall mistakes were corrected <p>Specific comments</p> <p>Title</p> <ol style="list-style-type: none"> 1- Spelling were corrected (instead of between to between) 2- Instead of using word 'Motives', the word 'Drivers' <p>Abstract</p> <p>Abstract were rephrase</p> <ol style="list-style-type: none"> 1- Abstract were rephrased and language problems were corrected 2- Abstract are shorted <p>Introduction</p> <ol style="list-style-type: none"> 1- Grammatical mistakes, spelling error and space missing were corrected <p>Methods and methodology</p> <p>Comment 2. During the process of data collection, population size was subject to the formula to derive sample size. Therefore existing sample size was derived by formula based on population size Yamane (1967) formula was used to derive sample size of this study</p> <p>Results and Discussion</p> <ol style="list-style-type: none"> 1- Subheading and number were reschedule 2- Descriptive information reduced also content were reduced. <p>References</p> <ol style="list-style-type: none"> 1- Reference prepared under guidance of Harvard reference style
